CODE DAO 2025

SINGLETON = un seul objet par classe

```
// SINGLETON - DEBUT
    private static BaseDeDonnees instance = null;
    public static BaseDeDonnees getInstance()
    {
        if(null == instance) instance = new BaseDeDonnees();
        return instance;
    }
    // SINGLETON - FIN
```

CONSTRUCTION de la connexion a la BDD

```
	public String BASEDEDONNEES_URL = "jdbc:postgresql://localhost:5432/videotheque";
	public String BASEDEDONNEES_USAGER = "postgres";
	public String BASEDEDONNEES_MOTDEPASSE = "testtest";
	protected Connection connexion = null;

	public BaseDeDonnees()
	{
		try {
			Class.forName("org.postgresql.Driver");
			connexion = DriverManager.getConnection(BASEDEDONNEES_URL, BASEDEDONNEES_USAGER,
BASEDEDONNEES_MOTDEPASSE);
		} catch (ClassNotFoundException | SQLException e) {
			e.printStackTrace();
		}
	}
```
